December 31, 1851.

PROPOSALS will be received at this office up to the lat of February next, inclusive, for grading, trimming, curbing, and laying the brick and flag footways and paving the gutters in the First and Second Wards of the city, forming one district; for the Third and Fourth Wards, forming the second district to be hid for separately, and to be given to different contractors.) for the year commencing the 1st day of April, 1852, agreeably to the following specifications:

The curbstone to be of the best blue rock or gneiss, in pieces of not less than two feet long, and not less than sixteen inches wide at the narrowest end, and dressed on the upper surface to a thickness of three and a half inches, and set in and well rammed with gravel to the proper grade.

The brick to be of the best pulse rock or gneiss, in pieces of not less than easily and the proper grade.

The brick to be of the best quality hard red paving brick; to be laid on a bed of coarse sand or fine gravel, at least six inches deep, with two courses on edge next to the curb, and one course on end on the inner line, where the pavement is less than the full width; no extra measurement for brick on edge or on end will be made.

The brone pavement to be of common quartz, laid on a bed of gravel at least nine inches deep, and to be well rammed, and, after being examined (and not before) by the Commissioner, to be covered with fine gravel or sand.

The flagging to be of blue rock or gneiss, in pieces of not less than two and a half inches thick, to be faid on a bed of fine gravel or sand, five inches deep, and with close joints.

Joints.

The work to be done in the best manner and within the time named in the order authorizing it to be done, and warranted to stand twelve months after its completion. Any repairs or relaying which may be required before the expiration of the year to be done by the contractor free of charge; for the due performance of which bond and security to the amount that the Mayor may require must be given by the contractors.

The bidders will state the rates at which the curbing, paving and flagging will be executed, including materials.

The bidders will state the rates at which the curbing, paving and flagging will be executed, including materials. For setting new curb, per running foot. For laying new brick pavement, per square yard. For laying new stone pavement, per square yard. For grading, (whether excavated or filling,) per cubic yard. For trimming, per running foot. For laying down flagging, per square foot. For laying down flagging, per square foot. For laying three and five courses of brick on edge, as required by law, in gutters and alleys, per running foot. And at the following rates, exclusive of materials, except the gravel that is required:

For setting new curb, including dressing, per running foot.

foot.

For laying new brick pavement, per square yard.

For taking up and relaying old brick pavement, per square yard.

For taking up and resetting old curb, per running foot.

For taking up and relaying old stone pavement, per

square yard.

For taking up and relaying old flag footways, per square

WALTER LENOX, Mayor.

43-Bidders will also state the price per running foot for the New York North river curbstone, with which material the right is reserved of having the work done.

MAYOR'S OFFICE, Washington, December 31, 1851.

PROPOSALS, in writing, will be received at this office up to the 1st day of February next, inclusive, for making Pumps, Hydrants, Logs for conveying water, and for sinking Wells, including all necessary materials and workmanship, in digging, laying, fixing, and completing, in the best manner, and for keeping the same in perfect repair for constant use, for the term of two years, commencing on the 1st day of April, 1852, agreeably to the following specificions:

tions:

FOR WELLS.

Digging and walling wells, including materials and removing the dirt, per foot, lineal.

Cleaning out wells, each.

Sinking old wells deeper, per foot.

Taking out old walls, and putting in same, per foot.

Cases of eight feet length, per foot.

Cases of more than eight feet length, per foot.

Covering new wells, including materials.

Paying new wells, including brick and pump stone.

Opening old wells, and covering same with old materials, each.

Opening old wells, and covering same with new timber.

Opening old wells, and covering same with new timber.

FOR PUMPS.

Keeping the pumps in repair, viz: stopping all leake, &c.,
then it can be done without taking out the pump, each.

Taking out and putting in old pumps, each.

Making new joints in old logs.

New logs put in old pumps, each.

New boxes and spouts in old pumps, each.

New pumps, per foot.

Boxes and spouts for new pumps, each.

Copper chambers for pumps.

Copper chambers for pumps.

FOR HYDRANTS.

Keeping the hydrants in repair, viz: stopping all leaks, &c., all new valves and spouts, repairing the old ones, and repairing the old irons belonging to them, when it can be done without taking the hydrant out, each.

Taking out hydrants and putting in same, each.

New hydrants, per foot.

Spouts for hydrants, each.

Spout stones for bydrants, each.

Painting pumps and hydrants, each.

IRON WORK.

Handles, axles, plates, bands and repairs, per lb.
Spout and lower box-irons for pumps, each.
New joints to old spears.
New spout and valve irons for hydrants.
WALTER LENOX, Mayor.

AT The Mayor reserves the privilege of dividing the city into two districts, and of giving the lowest competent bidder the choice of districts, and to the nex lowest the other.

REMOVAL.

RICHARD H. CLARKE, Attorney at Law, has removed his office to the corner of Sixth street and Louisiana avenue, under Mr. Towers's printing office. dec 29—co2w

Georgetown and Its Affairs.

GEORGETOWN, Jan. 8-12 m Owing, probably, to the pinching cold, the meeting at Forrest Hall was not so large as the former ones. Mr. Addison assumed the chair, and Mr. A. Pickrell was chosen Secretary. R. Ould, esq., made a speech of some length in reply to Mr. McKenney, and in favor of retrocession. At the conclusion of Mr. Ould's speech, Mayor Addison stated to the meeting that an eloquent and influential member of the legislature of Maryland was anxious to speak in favor of the measure, and that there would be no more meetings until it was ascertained what time would suit him, of which the public would be notified. The meeting then adjourned.

Mr. H. Craig (principal) and James A. Burns (assistant) were on yesterday re-elected by the Board of Guardians teachers of the town school. The quarterly report of the principal shows that there are on the roll 169 scholars, with an average attendance of 142.

There has been a protracted meeting going on in the Methodist Protestant Church for the last ten or twelve days. The Rev. Thomas Sewall

preaches for them to-night. The markets remain unchanged. ELECTRO.

Louis Napoleon is making rapid progress in building up a despotic throne on the ruins of the French republic.

If princes and presidents are not bound by their oaths, and if the Christian world ignores their perjury with approving smiles, then oaths

become a solemn mockery.

If the success of villany and perjury on the part of the chief ruler of the nation be sufficient to absolve him from the shame; if the doctrine that the end justifies the means" be allowed as a commendable creed for princes and rulers, where emains the principle on which to establish a code of laws to punish the peasant, or the citizen, who violates oaths, and respects no right or interest

of his neighbor in pursuing his selfish schemes?
The world knows, or will know, that the late election was a barefaced imposition—a monster leception practised upon the French people, not thousandth part of whom had a correct knowledge of the state of affairs before going to the polls. How could they? Every journal that would not become a medium for the circulation of the lies manufactured by Louis Napoleon's agents was seized and silenced. The post-offices and electric telegraphs were held under the surveillance of the government—that is, Louis Napoleon and his creatures, selected for the emergency; and even, as the time for voting approached, the printers were threatened with a revocation of their licenses if they printed tickets adverse to the usurper. Electors who went to vote in the negative were driven from the polls by the police.

And who counted the votes? The tools of Louis Napoleon. They may have counted fairly, out what reasons can be urged in support of their honesty? Louis Napoleon allowed no opposing candidate to be voted for. He placed the people of France in the alternative of choosing between him and anarchy—between the peace of temporary despotism and a desolating civil war. The vote of the French people is not the free, intelli-gent expression of their will. If a majority voted "yes" to Louis Napoleon's demand, it simply proves that a majority have had the prudence to void, for the present, coming in conflict with the three or four hundred thousand soldiers whom the usurper suborned to his support.

Why was the vote of the army taken within forty-eight hours after the traitorous dissolution of the Assembly, if not to show the people that they had no alternative but to submit to the treason, or be shot down without mercy or discrimination?

And thus a portion of the French people have been frightened into acquiescence with Louis Napoleon's treason. A portion, also, may approve, for selfish reasons, but their approval is of no more moral value than the applause with which banditti cheer some daring scheme of plunder planned by their leader. The freemen of America can never hold as justifiable acts in violation of every principle of republicanism, and of public and private morality.—N. Y. Sun.

THE GREAT INVENTION OF THE AGE!

THE GREAT INVENTION OF THE AGE:

Steam Supplanted:—Gas Triumphant::

THE first half of the nineteenth century will be recorded
as the age of Steam. It has passed, and with it will
pass the steam engine with the things that were.

The second half of the century will be known as commencing the age of Gas—an agent destined not only to light.

but to EXLIGITES the world. The age has now commenced, and with it is now introduced the Gas Engine.

Professor John C. F. Salomon, after twenty-six years of close observation upon the experiments of his own and of others in attempts to make the principle of the condensation of carbonic scid gas available as a mechanic motor, has perfected the same; and, having just received letters patent for his "Improved Carbonic Acid Engine," now offers to dispose of rights for the use thereof to the United States overnment, and to individuals or to companies the rights

for his "Improved Carbonic Acid Engine," now offers to dispose of rights for the use thereof to the United States government, and to individuals or to companies the rights of States, counties, or cities.

The immense saving of money and lab r, and of human lives and suffering, secured by the use of this new motor, will inevitably insure its speedy adoption in all places where steam engine has precluded its use.

This new motor may be applied to all purposes as a propelling agent, from the single-horse power for the cotton-gin to the two thousand horse power for ocean steamers, with the expense less than that required by the steam engine, of boilers and furnaces, fuel and firemen, and of bulk and weight—100 tons weight sufficing for the same power of 1,900 tons of the steam engine.

These facts are established by the experimental engine of twenty-five (25) horse power, now "working well" at Cincinnati, as noticed in the following from the Cincinnati "Nonpareil," of the 18th instant:

"We are pleased to state that J. C. F. Salomon, late of this city, has received a patent for his motor of carbonic acid gas, in its application to an engine. The successful experiments of this invention were not long since given in the "Nonpareil." The same gentleman has received another patent for the steering and propelling power."

Also, rights for the use of his "Improved Propelling and Steering Apparatus," one peculiar advantage of which gives the pilot such complete control of the vessel, independent of the engineer, that he can "right-about-face" a man-of-war in less time than is required to load her guns.

Also, rights for his "Improved Spring Saddle," for military and common purposes, designed for the greatest possible comfort of both horse and rider.

Any information in regard to the above invaluable inventions, and of obtaining rights, &c., may be promptly obtained by addressing

D. L. ELDER,

Attorney and agent for the patentee.

TO WESTERN TRAVELERS.

Express Mail Line from Baltimore to Pittsburg.

(Through in twenty-two and a half hours)

Tills Line to Pittsburg over the Baltimore and Susquehanna and Pennsylvania Central Railroads is now in successful operation. By it passengers leave Baltimore at 7½ p. m. (half an hour after the time of arrival of the evening train from Washington) and proceed to Harrisburg, where they are transferred to the Central Railroad train, and proceed immediately on without delay, crossing the mountains in daylight, and arriving in Pittsburg at 6 p. m. the day after starting. The entire distance is performed by railway, with the exception of 28 miles, which is done in first class coaches.

PASSENGERS FROM THE WEST

Leave Pittsburg in the cars of the Central Railroad at 7 a. m., and arrive at Harrisburg at 4 the next morning, where the Express Train of the Baltimore and Susquehanna Railroad will be in waiting, and proceed immediately on to Baltimore, arriving there at 8 a. m., in time for the train to Washington, which leaves at 8½ a. m. for the train to Washington, which leaves at 8½ a. m. for the train to Washington, which leaves at 8½ a. m. for the train to Washington, which leaves at 8½ a. m. for the train to Washington, which leaves at 8½ a. m. for the train to Washington, which leaves at 8½ a. m. for the train to Washington, which leaves at 8½ a. m. for the train to Washington, which leaves at 8½ a. m. for the train to Washington, which leaves at 8½ a. m. for the train to Washington, which leaves at 8½ a. m. for the train to Washington, which leaves at 8½ a. m. for the train to Washington, which leaves at 8½ a. m. for the train to Washington, which leaves at 8½ a. m. for the train to Washington, which leaves at 8½ a. m. for the train to Washington as any offered to the public. . TO THE DEAF!

OCTOR HARTLEY, Aurist, from the Ear Infirmary, 99 Arch street, Philadelphia, begs to inform those of his patients in the neighborhood of Washington with whom he has been in communication, that he has, in compliance with their special request, made arrangements to spend a few days in this city. Deafness, noises in the head, and all disagreeable discharges from the external ear, speedily and permanently removed, without causing the least pain or inconvenience; and he will guaranty a cure in all cases where malfor mation does not exist.

Dr. H. may be consulted at his rooms, on Pennsylvania avenue, between 9th and 10th streets, north side, over Myer's dry-good store, from 9 to 3 daily. Evenings by appointment.

Thirteen years close and almost undivided attention to this branch of special practice has enabled him to reduce his treatment to such a degree of success as to find the most confirmed and obstinute cases yield by a steady attention to the means prescribed.

The following testimonials are submitted with confidence. They will show at least in what estimation his professional qualifications are held by some of the most distinguished medical men of the country:

"I have had the pleasure to meet Dr. Hartley in practice, and have been ied to form a favorable crity and the second country."

"I have had the pleasure to meet Dr. Hartley in practice, and have been led to form a favorable origin.

tice, and have been led to form a favorable opinion of character, both in the profession and as a gentleman. "W. PARKER, M. D., "W." Profes "His professional abilities will be duly appreciated by those who place themselves under his care. "JOHN H. WHITTAKER, M. D.,

"From my intercourse with Dr. Hartley, I have found his deportment correct and gentlemanly. "VALENTINE MOTT, M. D."

"It is a pleasant duty to give my testimony in favor of the treatment adopted by Dr. Hartley for the cure of deaf-ness. The application is unattended by pain or inconve-nience, and its effects almost instantaneous.

"H. P. HARDMAN, "Counsellor at Law, 23 Chambers street."

"Counsellor at Law, 23 Chambers street."

"We have known several cases of partial deafness treated by him with the most happy results. Dr. H. is a scientific gentleman, and can produce numerous testimonials of his ability and success in this difficult branch of the medical profession."—Globe.

"Persons afflicted by diseases of the ear are recommended to pay a visit to Dr. Hartley, Aurist, at No. 99 Arch street, above Third. He is a well-educated professional man, and, having paid particular attention to diseases affecting hearing, has acquired, from his skill and experience, better means of coping with this serious affliction than those which are possessed by physicians in general practice."—Despatch.

GAUTIER'S HERB CANDY. For Coughs, Colds, Bronchitis, Asthma, etc.

This invaluable canny has the extraordinary property of immediately relieving coughs, colds, hoarseness, difficulty of breathing, bronchitic, asthma, and huskiness of the throat. It operates by dissolving the con-

horseness, difficulty of breathing, bronchitis, asthma, and huskiness of the throat. It operates by dissolving the congealed phlegm, consequently causing a free expectoration. Those who are troubled with that unpleasant tickling in the throat, which deprives them of rest night after night, by the incessant cough which it provokes, will, by using this Candy, find immediste relief.

The subscriber, in presenting this Candy to public notice, wishes to be expressly understood that he does not claim for it any miraculous curing properties, nor does he present it with a long string of certificates of recommendation, as he considers these altogether necoless.

This Candy is composed of six simple ingredients, principally of herbs, which are known to be very efficacious in the cure of diseases resulting from colds, and some of which, being rather nauseous in their natural state, would deter many from reserting to them; but, when made into a candy, become palatable, without losing any of their valuable properties.

It has been prepared at the suggestion of one of our most eminent physicians, and has been used by many of this and my personal friends with signal success, and at whose carnest solicitation I have been induced to enter largely into its manufacture, assured by him and them that when generally known and tried it will supersede all the various cough candies and mixtures now in use.

As for myself, I am confident, from the ingredients of which it is composed, that, should it not effect an entire cure, it can do no injury even to the most delicate in health, and therefore have no hesitancy in introducing it to the citizens of Washington and vicinity.

Discretions for use: Use one stick per day—in the morning before breakfast, in the middle of the day, and at night on going to bed. Price 1214 cents.

CIRCULAR.

CIRCULAR.

Washington, August 1, 1851.

Sir: After consulting many persons interested in the principal Railroads in the United States, the undersigned propose to establish agencies in this city and in New York, for the purpose of collecting fall and authentic Railroad statistics and such other information as will enable them to serve persons desiring to invest in Railroad securities, or to precure information of any matters connected with the construction and administration of Railroads. They also propose, especially, to urge upon connected with the Convergence of the Railroads. They also propose, especially, to urge upon Congress a modification of the laws relating to contracts for carrying the mail, so as to authorize the Post Office Department to contract for the perpetual use of Railroads.

pertinent to contract for the perpetual use of Railroads, and, instead of paying, as now, quarterly on contracts for four years, to advance in five per cent, bonds of the United States, chargeable upon the revenues of the Post office Department, an amount, the interest upon which at 6 per cent, would equal the payments now made.

The Government now pays \$300 per mile for carrying the mail on first-class Railroads. This is 6 per cent, on \$5,000. The undersigned would urge that, instead of paying \$300 a mile, per annum, the Department should deliver, on a contract in perpetuity, five \$1,000 bonds, bearing an interest of five per centum. At this rate the charge upon the Department would be reduced from \$300 to \$250 a mile, per annum, and the \$50 a mile saved would create a sinking fund, which will, in a few years, pay off the bonds, and give the use of such roads forever thereafter free of all charge; thereby effecting a vast saving on the present annual expenditures of the Pest Office Department, and a consequent reduction of the rates of postage. ates of postage.

The effect will be no less advantageous to Railroad com

The effect will be no less advantageous to Railroad companies than to the Government. For instance, such a contract would gize to the Baltimore and Ohio Railroad Company more than \$2,000,000, which would enable that company to complete its road at an early day, and greatly increase its business and profits.

But to meet objections and impress the public mind with a proper sense of the benefits to result from this measure will require concert of action and continued active effort, through the press and otherwise. The undersigned tender their services to your company, expecting a reasonable compensation, partly contingent upon the success of the measure; and respectfully suggest the propriety of your sending one or more delegates to this city, on the first Wednesday in December next, to confer with delegates from other Railroad companies, as to the details of the proposed arrangement and the best mode of bringing the subject before Congress.

Should it be your pleasure to accept of our services in this matter, we will prompily attend to all other business, which you, or your Company, may have with the Post Office Department, or other branch of the Government.

Heping to hear from you at your earliest convenience, we are, respectfully, your obedient servants,

WONDERFUL DISCOVERY!

"NONE FUL DISCOVERY!
"NONE NEED DESPAIR."

All must admit there never has been given such a mass of genuine testimony in favor of any other medicione. Give it a brial! It cares when all other remedies have failed, Greater weight of testimony cannot be given—from the first men in this country.

BALTIMORE, Sept. 18, 1851.

GENTLEMEN: After a full and satisfactory trial of the medicine prepared by you, and very generally known as br. Hampton's Vegetable Tincture, which you recombr. Hampton's Vegetable Tincture, which you recommended me to use as a relief for the debility and general prostration of my system, the result of taking three bottles of this wonderful compound has, I am pleased to say, resulted in a restoration of strength, a Keen appetite, and an activity of body which I have not enjoyed for a long time. So satisfied am I of the virtues of this medicine, that I have considered by recommended it to many of my friends and acquaintances, and am happy to learn that in a great majority of cases the most beneficial results have stamped the injalibidity of the Tincture. In my own case I am satisfied that your advice to me to give it a trial has under the blessing of a kind Providence, resulted in a restoration to health, for which I am truly thankful.

Respectfully, JOS. K. STAPLETON,

Messrs. Mortimer & Mowbray, Baltimore, Md.

Messrs. Mortimer & Mowbray, Baltimore, Md.

Messrs. Mortimer & Mowbray, Baltimore street.

More Home Testimony.—None Need Despair.

TRY IT AND BE CURED.—WONDERFUL AND Pell-MANENT CURE Of DYSPEPSIA.

Messrs. Mortimer & Mowbray—Gentlemen: This is to certify that in the year 1843 I was attacked with a nervous affection, in consequence of Dyspepsia or Indiguistion, which continued some eighteen months, during which time my sufferings were intense, both of body and mind. I tried every thing I could think or hear of, (as there was much sympathy for me,) and at length fall efforts failed to cure me. I became much weakened, and could walk but a very short distance at a time, and was often in the act of falling upon the pavement, (I would stop in some door or alley to prevent it.) in consequence of frequent palpitations; and, from what I could learn, I supposed I had disease of the heart, from frequent directions pains about the same; as also my chest and abdomen—the latter being much distended. At this stage of my disorder I could neither eat, sleps or weak with any satisfaction to myself. Life seemed to be a burden to me. My feelings were gloomy beyond description.

I at length heard of Dr. Hampton's Vegetable Tincture, and made trial of it. I had but taken the first dose when I felt a change for the better, and hope immediately sprang up. I continued, with the use of this ineclusable functors, to improve daily, until I had taken the contents of three bottles, which, under Divine Providence, made a perfect cure of me.

I found I had an excellent appetite, and could partake

of three bottles, which, under Divine Providence, made a perfect cure of me.

I found I had an excellent appetite, and could partake of any food, which I could not do for years previously without the most distressing sensations. I now enjoy uninterrupted good health, and have done so for the last six years; and would say to all afflicted as I have been, to cast aside your prejudices, and try Hampton's Vegetable Tincture. Any information beside this but meagre description of my case will be given by the foot of the cast of the court of the court

CONVICTION TO EVERY MIND.

BALTIMORE, Sep. 18, 1851.

Mesers. Mortimer & Mowbray.—Gentlemen: The cure of Mr. Robert Gault, by the use of three bottles of Hampton's Vegetable Tincture, as per his certificate, is, I think, almost unprecedented. His case of extremely excruciating suffering, from Chronic Inflammatory Rheumatism, came immediately under my own observation, through the last four years, which I considered entirely hopeless. Through my earnest persuasion, he was induced to try your invaluable Tincture. I was prompted to remark at the time that if medicine would cure Mr. Gault, it certainly would "renove mountains." The knowledge of this miraculous cure compels me to consider it a duty I owe to the afflicted (and particularly to those with complaints like his) to cure compets he to constant a tradity, where the his to make generally known the healing power of this truly wonderful medicine. Yours, most respectfully,

JAMES P. MERRITT,

JAMES P. MERRITT,

187 Baltimore street.

HAMPTON'S TINCTURE is the great purifier of the blood—will cure Scrofula, Rheumatism, Colds, Cough, Liver Complaint, Diseases of the Throat and Breast, &c.; a certain relief in all riervous complaints.

As a female medicine it has no equal. Thousands will bless the hour they ever heard of it. Call on our agents and get pamphlets with certificates of wonderful cures; also the history of the medicine gratis.

With 12½ Cents to save four Pounds of Coffee!

This essence has been proved by many thousand of the richest and most respectable families, as well as by the poorer class of people, almost through the whole United States, to be by far the best preparation of Coffee ever offered to the public. Coffee made by this Essence is much more wholesome, more delicate, fine-flavored, perfectly clear, and, in every instance, superfor to the timest Java coffee.

In order to give full satisfaction and proof that the above article is perfectly healthy, and to show something of the deserved reputation it has gained and justly entitled to, we amnex a few certificates and recommendations, particularly relating to health, from Dr. Booth and Dr. Chilton, practical Chemists and Analysists of the cities of Philadelphia and New York; also, from our Agents, all of whom are prominent Chemists and Bruggists.

College Avenue, Tenth st., below Market st.,
Philadelphia, Sept. 4, 1861.

I have examined the Essence of Coffee manufactured by Hummel, Bohler & Co., and find that its constituents are not in the least degree singurious to health; it may be used freely and with perfect safety.

JAMES BOOFH, Proft. of Chemistry, applied to Arts, Franklin Institute.

I have examined an article prepared by Messers, Hummel, Bohler & Co., of Philadelphia, called Essence of Coffee, which is intended to be used with coffee for the purpose of improving it. I find it free not only from any thing injurious to health, but, on the contrary, the ingredients of which it is composed are perfectly wholesome.

JAMES R. CHILTON, M. D., Chemist.

Messrs. Hummel, Bohler & Co.—Gentlemen: We take pleasure in recommending your "Essence of Coffee as a very superior article; it is extensively used in our county; we have only had it one year, and have sold over 16,000 packages. We believe it to be one of Those strickes that will remain in constant use, and the more it becomes known the greater will be the demand for it.

Yours, respectfully, C. A. MORRIS & CO.
